It's over a year since Microsoft first released their 'Windows 10' operating system, and now the second major upgrade - the 'Anniversary Update' is available. The session will include a look at some of the new features and we'll discuss the one they took away!

This session is aimed at anyone familiar with previous editions of Windows and wants to have an introduction to this new version.

The session will include:

- Hearts has gone... what else is missing?
