

How are we performing against our Service Standards?

The commitment to develop Service Standards across housing services was part of our response to the Scottish Social Housing and our commitment to increase tenant involvement in the scrutiny of our services.

Following an invitation in the autumn 2013 edition of the Housing News, tenants and staff got together and worked closely to develop standards which are clear and easy to understand and easily measurable so we can report back to tenants about how we are performing.

The standards were reviewed and updated in 2016 and we committed to report performance regularly to tenants via the Housing News and via the Council's website. Our performance against these Service Standards in 2017/18 is outlined below:

More information about our Service Standards can be found on the Council's website at:
